## Plan Overview

*A Data Management Plan created using DMPonline*

**Title:** To transform a laboratory-proven disinfection by-product sensor into a validated reliable sensor network for water distribution systems.

**Creator:** Stephen Boulton

**Principal Investigator:** Stephen Boulton

**Data Manager:** Stephen Boulton

**Affiliation:** University of Manchester

**Template:** EPSRC Data Management Plan Customised By: University of Manchester

**ID:** 39671

**Last modified:** 03-05-2019

### Copyright information:

The above plan creator(s) have agreed that others may use as much of the text of this plan as they would like in their own plans, and customise it as necessary. You do not need to credit the creator(s) as the source of the language used, but using any of the plan's text does not imply that the creator(s) endorse, or have any relationship to, your project or proposal

# To transform a laboratory-proven disinfection by-product sensor into a validated reliable sensor network for water distribution systems.

---

## Manchester Data Management Outline

### 1. Is this project already funded?

- No

### 2. If you will be applying for funding from multiple sources who else will you be applying to?

- Not applicable

### 3. Is The University of Manchester the lead institution for this project?

- Yes - leading a collaboration

### 4. What data will you use in this project (please select all that apply)?

- Acquire new data
- Re-use existing data (please list below)

Existing data concerning topology of water distribution systems owned by collaborators.

### 5. Where will the data be stored and backed-up during the project lifetime?

- University of Manchester Research Data Storage Service (Isilon)

Also stored by the project partner Siemens plc

### 6. If you will be using Research Data Storage, how much storage will you require?

- < 1 TB

### 7. If you have a contractual agreement with a 3rd party data provider will any of the data associated with this project be sourced from, processed or stored outside of the institutions and groups stated on your agreement?

- No

### 8. How long do you intend to keep your data for after the end of your project (in years)?

- < 5 years

***Questions about personal information***

Personal information or personal data, the two terms are often used interchangeably, relates to identifiable living individuals. Special category personal data is more sensitive information such as medical records, ethnic background, religious beliefs, political opinions, sexual orientation and criminal convictions or offences information. If you are not using personal data then you can skip the rest of this section.

Please note that in line with [data protection law](#) (the General Data Protection Regulation and Data Protection Act 2018), personal information should only be stored in an identifiable form for as long as is necessary for the project; it should be pseudonymised (partially de-identified) and/or anonymised (completely de-identified) as soon as practically possible. You must obtain the appropriate [ethical approval](#) in order to use identifiable personal data.

**9. What type of person identifying information will you be processing (please select all that apply)?**

- No sensitive or personal data

**10. Please provide details of how you plan to store, protect and ensure confidentiality of the participants' information as stated in the question above**

N/A

**11. If you are storing personal information will you need to keep it beyond the end of the project?**

- Not applicable

**12. Sharing person identifiable information can present risks to participants' privacy, researchers and the institution. Will the participants' information (personal and/or sensitive) be shared with or accessed by anyone outside of the University of Manchester? This includes using 3rd party service providers such as cloud storage providers or survey platforms.**

- No

**13. If you will be sharing personal information outside of the University of Manchester will the individual or organisation you are sharing with be outside the EEA?**

- Not applicable

**14. Are you planning to use the personal information for future purposes such as research?**

- No

**15. Who will act as the data custodian or information asset owner for this study?**

Stephen Boulton

**16. Please provide the date on which this plan was last reviewed (dd/mm/yyyy).**

## **Data Collection**

### **What data will you collect or create?**

Research data - water quality data from water distribution systems owned by project collaborator

### **How will the data be collected or created?**

By installation of instrumentation developed by the project and installed in partnership with a UK water services provider

## **Documentation and Metadata**

### **What documentation and metadata will accompany the data?**

Some data is proprietary will only be available to project partners unless release is authorised by all partners/collaborators.

## **Ethics and Legal Compliance**

### **How will you manage any ethical issues?**

Some data is proprietary will only be available to project partners unless release is authorised by all partners/collaborators.

### **How will you manage copyright and Intellectual Property Rights (IPR) issues?**

A collaboration agreement will be signed if the Project is funded.

## **Storage and Backup**

### **How will the data be stored and backed up during the research?**

Stored at UoM Research Data and subject to back up by UoM Research data

### **How will you manage access and security?**

Only accessible by UoM staff with authorisation.

## **Selection and Preservation**

### **Which data are of long-term value and should be retained, shared, and/or preserved?**

Data is unlikely to be valuable beyond 5 years any that is will be retained and stored at UoM Research Data.

**What is the long-term preservation plan for the dataset?**

retained and stored at UoM Research Data.

## **Data Sharing**

**How will you share the data?**

Anonymised data relating to performance of the sensor developed by the project will be available via open-access publications.

**Are any restrictions on data sharing required?**

Siemens are co-funders and UK water services providers are collaborators, both will restrict release of data. The collaboration agreement will include the provisions for data release, typically anonymisation will be required by the WSP and delayed for Siemens so as to preserve commercial value.

## **Responsibilities and Resources**

**Who will be responsible for data management?**

Stephen Boulton

**What resources will you require to deliver your plan?**

Already have sufficient space at UoM Research Data Services  
Resource required for open access publication
